Subject: InnoDC in Norway, Portugal & Wales

The InnoDC researchers have recently been presenting, competing and YouTubing!

Anup Kavimandan in Norway

Denmark-based [Anup](#) nipped over to Norway to present his paper 'Hierarchy and complexity in control of large offshore wind power plant clusters' at [EERA DeepWind'19](#). He particularly enjoyed hearing from wind energy experts about offshore challenges, global installation and technical developments.

Gayan Abeynayake in Cardiff

[Gayan](#) was delighted to win the [IEEE](#) PES UKRI presentation competition held at Cardiff University - thanks to his clear message, excellent technical content, presentation skills and slides.

Filming in Porto

And finally, if you would like to learn more about each researcher's project, watch their YouTube [explanations](#), filmed at [Uporto](#). Thanks to [Emily Maggioli](#) who acted as assistant film director, and to [Motaz Ayiad](#) who was the day's professional photographer.

InnoDC has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 765585.
